Team 33 AI Report

AI Usage Scale: 3

Models Used

Claude Sonnet 5.5, Claude Opus 5.5

Description

We came up with ideas for the different tabs and visualisations ourselves, we used ai for small code snippets, for example help writing certain pandas queries, for improving certain small bits of code, for example turning a loop based implementation into a vectorised solution on a pandas dataframe, for ui improvements, for example the basic styling of dropdowns and of the streamlit app and for help combining the separate projects together
